

2010 DEER HUNTING INFORMATION AND ON-LINE/TOLL FREE TELEPHONE CHECK-IN SYSTEM

Your Deer Permit entitles you to participate in the privilege of deer hunting. Please review this information to assure that you comply with all of the deer hunting regulations. While hunting please respect the rules of good sportsmanship and the property of others. Have a safe and successful deer hunt. And remember - Safe Hunting is **No Accident**.

Refer to the back of your deer permit for detailed instructions on tagging your deer.

ATTENTION HUNTERS: DEER CHECK-IN SYSTEM ON-LINE AT www.dnr.state.il.us/vcheck OR CALL TOLL FREE 1-866-IL-CHECK

Attention Cell Phone Users: The most common reason hunters are unable to complete their harvest reporting is because of a poor cell phone connection. Once you have properly tagged your deer, you have until 10 p.m. on the day of harvest to report. Wait until you are out of the woods and receive a clear, strong cell phone connection before placing your call. Successful deer hunters must report their harvest using our automated check-in system. They may choose to report harvest on-line at www.dnr.state.il.us/vcheck, or by telephone (toll-free) at 1-866-452-4325 (1-866-IL-CHECK). For your convenience, this number is also printed on the front of your deer permit. Immediately upon kill and before the deer is moved, transported or field dressed the hunter must cut out the designated notch on the leg tag to invalidate it, and the tag shall be attached and properly sealed. Hunters must check in their harvest via telephone by 10 p.m. on the day of kill. The deer must remain whole (or field dressed) until it has been checked in. When checking in their deer, hunters will be asked to provide a variety of information to assist biologists in managing Illinois' deer population. Please look over the questions listed on the back of your permit prior to making the call, and be prepared to answer them when asked. After providing all of the information, hunters will be given a 10-character confirmation number to verify that they checked in their harvest. The confirmation number must be written onto the leg tag in the appropriate boxes, so please have a pencil or pen handy when making the call (an extra-fine tipped permanent marker works best). If the condition of the tag precludes writing on the tag in the appropriate space (i.e., bloody, etc.), the confirmation number shall be written elsewhere on the tag, or onto a piece of paper and attached to the deer along with the temporary harvest tag. The leg tag and confirmation number must remain attached to the deer until it is at the legal residence of the person who legally took or possessed the deer, the deer has been checked in, and final processing is completed.

In instances where deer are checked in while the hunter is still afield, the deer may not be dismembered while afield beyond quartering the animal. If quartered, all parts of the carcass (except the entrails removed during field dressing) must be transported together and evidence of sex must remain naturally attached to the carcass. Evidence of sex is:

A) for a buck: head with antlers attached to carcass, or attached testicle, scrotum, or penis,

B) for a doe: head attached to carcass, or attached udder (mammary) or vulva.

If the head/antlers are delivered to a taxidermist for processing, the confirmation number must be recorded on the "head tag" portion of the permit and both must remain with the deer while at the taxidermist's. If the carcass is taken to a meat processor, the temporary harvest tag (leg tag) with confirmation number must remain with the deer while it is processed, and until it is at the legal residence of the person who legally took or possessed the deer. Persons delivering deer/parts of deer to a tanner for processing must supply the tanner with either their deer permit number, their confirmation number, or written certification by the person from whom the deer was received that the specimen was legally taken or obtained.

The primary purpose of registering deer harvest is to gather biological information necessary for proper management. The Illinois Department of Natural Resources (IDNR) is committed to gathering this information.

Each Youth Deer permit holder is required to be accompanied by a parent/guardian or responsible adult who possesses a valid Firearm Owners Identification (F.O.I.D.) Card. The accompanying adult must be present for the permit holder (youth) to hunt. The adult is not allowed to hunt during the youth season only.

SPECIAL NOTE: Any unfilled firearm, muzzleloader or youth permits except special hunt area permits that were valid during the previous firearm, muzzleloader-only or youth seasons are valid during the late-winter antlerless-only firearm season (if open in that county), but the holder may only harvest antlerless deer.

Clothing: Any person attempting to take or taking deer by use of a firearm shall wear, when in the field, a cap and upper outer garment of solid blaze orange color, displaying a minimum of 400 square inches of blaze orange material.
